

**REMARKS**

The foregoing amendments are made to insert the required SEQ ID NO. identifiers associated with various listed sequences, as well as to correct an obvious typographical error. Namely, we have added the "e" to the three letter abbreviation of the serine residue in SEQ ID NO: 2 on page 20. Support for said correction may be found in the one letter abbreviation of the sequence.

Applicants believe that the present application is now in condition for allowance. Favorable reconsideration of the application as amended is respectfully requested.

The Examiner is invited to contact the undersigned by telephone if it is felt that a telephone interview would advance the prosecution of the present application.

Respectfully submitted,

August 8, 2007
